hp StorageWorks HSG60 and HSG80 Array Controller and Array Controller Software

Product Version: 8.8-2

Due to the nature of the HP StorageWorks Array Controller Software (ACS) release, product version numbering has been modified. When you upgrade your ACS version from ACS Version 8.6-*x* or V8.7-*x*, you should note that the enclosed program (PCMCIA) card updates your ACS version to V8.8-2. Documentation associated directly with this release may reference ACS V8.8-1, rather than ACS V8.8-2. Please note that all V8.8-1 references within these documents are applicable to ACS V8.8-2.

Please contact your HP technical support if you encounter problems. Telephone numbers for worldwide technical support are listed on the following HP website: <http://www.hp.com/support/>. From this website, select the country of origin.

Note: For continuous quality improvement, calls may be recorded or monitored.
